DETAILED ACTION

Claim Objections

Claim 10 is objected to because of the following informalities:

Line 4, the word "corporation" should be "cooperation."

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 5,624,109 to Tanaka.

Tanaka discloses an automatic feeding device for feeding plural sheets of recording medium stacked on a stacking portion by separating them one by one, comprising:

- feeding means (Pr) for carrying said recording medium stacked on said stacking portion;
- separating means (Rr) for separating said recording medium one by one by abutting against said recording medium carried by said feeding means; and

Art Unit: 3653

- a front stage regulating member for confining the number of sheets of said recording medium advancing into said separating means (See Fig. 14), wherein
- at least one of supporting members (Am) provided for both ends of said feeding means is made movable, and at least one of said supporting members is structured to move between plural positions during the execution of a series of feeding operations (See Figs. 15 and 16).

In regard to claim 5, see Figs. 15 and 16.

In regard to claim 6, Tanaka disclose a torque limiter on the separation roller (Col. 2, lines 50+)

Allowable Subject Matter

Claims 2, 3, 4, 7, 8 and 9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 10 is objected to for a minor informality. Therefore, if dependent claims also contain the informality. However, the claims appear allowable provided the correction of the informality.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
